

Wheatland TUBE COMPANY

Fence Division

Building a better framework for America.

Wheatland Delivers

Wheatland Tube Company, with an American heritage of over 125 years serving the pipe and tube industry, is ready to stand tough in meeting the challenges of this new century. Built on a solid foundation, Wheatland is committed to producing the highest quality, most complete family of fence framework in the industry.

The Hot Mill

Our full weight hot dip galvanized Schedule 40 produced on the furnace weld mill in Wheatland, PA is the standard of excellence by which fence framework products are measured. You can depend on the quality and availability of our F-1083 fence pipe. When you buy Wheatland, you're not left standing at the dock waiting for your ship to come in.

Commitment To The Future

Through process innovation, Wheatland's expanded facilities in Chicago, IL, Little Rock, AR, Sharon, PA, Warren, OH and Wheatland, PA manufacture in-line galvanized ERW fence framework and barbed tape of uncompromising quality. Wheatland is the only domestic producer of both F-1083 fence pipe and ERW Spec, Commercial & Residential Pipe and Tubing Products.

Service and Integrity

Wheatland's growth and longevity is based on a dedication to service and customer satisfaction. "Dependable customer service" is more than a slogan at Wheatland Tube Company. It is integrity, knowledge, innovation and the sincere desire by our people to do the job better. Wheatland is committed to the ultimate quality standard...the standard set by our customers.

The industry's most complete family of framework products

Spec and High Security Framework

Wheatland is the only fence framework manufacturer that produces two distinct product types that meet the most stringent spec and high security requirements. Our WT-40 product and our hot dip galvanized F-1083 meet the toughest requirements such as the AASHTO M181 Specification.

WT-40 — Produced with a high tensile/yield strength cold-formed steel. Wheatland's state of the art in-line ERW manufacturing process produces a uniform triple layer of O.D. protection against corrosion. The application of the highest quality zinc is followed by an intermediate conversion coating and then is finished with a brilliant UV clear polymeric coating.

F-1083 — Wheatland is the leading supplier of full weight hot dip galvanized Schedule 40 domestic fence framework. F-1083 is the original specified fence framework used for commercial, industrial and high security applications.

Commercial & Light Industrial Fence Framework

WT-30, WT-20 and WT-15 — Wheatland's WT-30, WT-20 and WT-15 are engineered and designed for industrial and commercial framework applications. Made to the highest quality standards on Wheatland's in-line ERW manufacturing process with our powerful triple layer of O.D. coatings, WT-30, WT-20 and WT-15 provide outstanding corrosion protection.

Residential Fence Framework

Round and square tubing — Wheatland manufactures a full range of residential fence framework products. Wheatland's galvanized squares are ideal for use in ornamental fence framework. Our cut-to-length inventories assure you fast, complete deliveries on the first call.
